

## ISO 9001:2015 - EA37 certification

In March 2021, Noseda obtained the **ISO9001:2015 - EA37 certification for quality management in the field of training.**

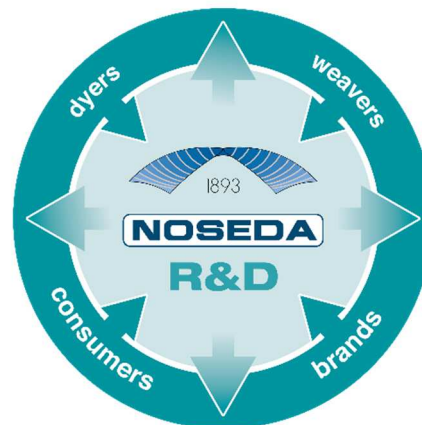

With this certification, Noseda reconfirms the **uniqueness** and **reliability** of its services, and it is formally accredited as a **training provider**, offering **training packages** and **educational programs** created **specifically** for the customer.

Noseda Customers will continue to receive the same excellent Pre and after sales service provided by a **specialised, qualified and now certified Team.**

And what is more: for the Customer, it will be possible to benefit from additional advantages, such as:

- **Qualitative advantages**, thanks to the identification of the **highest standards of efficiency and eco-sustainability** in a context that, starting from the **analysis of processes** and passing through their verification, favours **optimisation**;
- **Productive advantages**, thanks to the **training** of a Team that will be formally enabled to use our best performing machines.
- **Economic advantages**, thanks to the **use of incentives** or **funding** provided by local authorities, but not only, and thanks to which it will be possible to **recover** all or part of the costs incurred for the development of a training program designed and provided directly by Noseda.

**R&D; focus on Customer**; long-term **partnerships**; excellence in technology and machinery; and, now, **training services within a framework of adequate economic and operational sustainability.**
